**Well here we are, another cruising season is about to start. Please come out this Saturday May 4<sup>th</sup> to McDonald's Restaurant for our first cruise of 2013. Let's hope for good weather.**

## **SPECIAL EVENT**

**Attention All Washington Cruisers Members-Our club has been invited to have a special cruise on July 13<sup>th</sup> at the Hawthorne Wood Assisted Living Facility located on Locust Ave. in Washington. The cruise will be from 12 noon -2 pm. This event is to give the residents of Hawthorne Wood the chance to attend a car cruise without the hassle of leaving the facilities. There will be room for 30-40 cars MAX, so please be early to get a good spot. Food will be provided for all cruise participants by Hawthorne Wood and there will be a 50/50 raffle for cruisers only. The Hawthorne Wood's Chef is Renee Gordon, who is the wife of the manager of Advance Auto Parts, Tim Gordon. His generous donations to our club have given us many items for drawings and raffles for many years. So let's give back by filling the lot with our vehicles for the entertainment of the residents of Hawthorne Wood. Remember this cruise will be from 12-2, our regular cruise starts at 6 pm at McDonald's. Because there is only room for 30-40 cars, this cruise is for CLUB MEMBERS ONLY.**

**Hope to see you there.**

**I will have a reminder for this cruise in the July newsletter.**

## Get Rid of Ants Solution

This is a recipe for getting rid of those pesky ants that come every spring and summer. Mix up the solution, pack cotton balls in a jar cover, put the solution on and they will be gone.

### Ingredients:

- 1 cup sugar
- 3 tablespoons boric acid
- 3 cups warm water

### Directions:

1. Mix the sugar and boric acid well.
2. Add the warm water slowly, mixing all the while so it won't be too lumpy.
3. Store in a jar until ready to use.
4. When ready to use, put cotton into the top of a jar lid to fill it and then saturate the cotton to the top.
5. Place it in the location where it is needed.
6. **Note:** This solution will keep for a long while. A good technique is to drip a drop or two over the edge of the lid to rest on the counter so the ants will find the solution sooner. It sometimes takes a little while for them to find it, but find it they will. When they do, do not disturb them as they drink. They will hang over the edge of the lid and drink for a while and then take it back to the nest killing the colony. Almost overnight they will be gone.

## Tips

**Newspapers:** Clean Windows and Mirrors  
Instead of using a spray and a streaky cloth, use only newspaper to clean off your mirrors and windows for a streak-free finish.

**Baking Soda:** Remove Bugs from Windshield  
Mix baking soda with warm water to make a paste. Spread the paste over your windshield for fifteen minutes. Then wipe or spray off with a hose.

**WD-40:** Remove Crayons from Walls  
Use the lubricant and a cloth to remove stubborn crayon marks from the walls just by spraying the wall and wiping with a cloth.

**Mayonnaise:** Remove Bumper Sticker  
Spread mayonnaise on the bumper sticker and let sit for at least thirty minutes. Then, rub the sticker off with a towel, leaving a clean bumper!

## Merchandise

Jeff has a new T-shirt color. He will have them at the first cruise. You can contact Jeff at 724-228-8882 if you want to purchase merchandise or you can see him at the cruises.

### For a good laugh

Two medical students were walking along the street when they saw an old man walking with his legs spread apart.  
He was stiff-legged and walking slowly.  
One student said to his friend: "I'm sure that poor old man has Peltry Syndrome. Those people walk just like that."  
The other student says: "No, I don't think so. The old man surely has Zovitzki Syndrome. He walks slowly and his legs are apart, just as we learned in class."  
Since they couldn't agree they decided to ask the old man. They approached him and one of the students said to him, "We're medical students and couldn't help but notice the way you walk, but we couldn't agree on the syndrome you might have.  
Could you tell us what it is?"  
The old man said, "I'll tell you, but first you tell me what you two fine medical students think."  
The first student said, "I think it's Peltry Syndrome." The old man said, "You thought - but you are wrong."  
The other student said, "I think you have Zovitzki Syndrome." The old man said, "You thought - but you are wrong."  
So they asked him, "Well, old timer, what do you have?" The old man said, "I thought it was GAS - but I was wrong, too!"
